2. Quality and acceptance

- All manufacture and testing must comply with CAL-SPEC-OSD-201-01, the approved master batch record, the Quality Agreement, cGMP, and the amended agreement.
- Kristos quality-unit release does not replace Caldova's final disposition for use.
- Any deviation potentially affecting identity, strength, quality, purity, data integrity, delivery, or regulatory commitments requires prompt written notice.
- No substitution of materials, site, equipment train, test method, or subcontractor without approved change control.
- Caldova may quarantine or reject nonconforming product under MSA-CAL-KRI-2024-017.

3. Commercial controls

Invoices must quote this PO and line number, identify the relevant batch or approved milestone, and include required evidence. Only quantities and charges shown here are authorized. Taxes, freight, storage, surcharges, or pass-through expenses require explicit written authorization.
