

AMENDMENT TO MANUFACTURING SERVICES AGREEMENT

CALD-201 award and supply schedule

UNDERLYING AGREEMENT

MSA-CAL-SUM-2024-017

Effective 09 December 2024

AMENDMENT EFFECTIVE

16 November 2026

Award reference RFP-CAL-OSD-2026-01 / RSP-SUM-2026-01

This Amendment is entered into by Caldova Pharmaceuticals, Inc. and Summit Dose Manufacturing. Capitalized terms not defined here retain the meaning in the underlying Agreement.

1. Recitals

- A. Caldova issued RFP-CAL-OSD-2026-01 for technology transfer and commercial manufacture of CALD-201 50 mg film-coated tablets.
- B. Summit Dose Manufacturing submitted RSP-SUM-2026-01 and passed the quality and regulatory gates required by CAL-POL-PUR-001.
- C. Caldova completed a weighted evaluation and selected Summit Dose Manufacturing as the best total-value offer, subject to this signed Amendment and the applicable Quality Agreement.

AWARD EVALUATION

Rank	Supplier	Weighted score	Year-one total	Decision
1	Summit Dose Manufacturing (sup-006)	90.10	\$813,400.00	Selected
2	Aster Ridge Biomanufacturing (sup-001)	87.40	\$1,101,600.00	Not selected
3	Atlas Regional Manufacturing (sup-014)	80.10	\$835,200.00	Not selected

Selection basis: Summit Dose Manufacturing combined adequate reserved capacity, satisfactory audit status, no open quality actions, accepted commercial terms, and the lowest evaluated year-one cost.

2. Product and commercial schedule

Field	Amended commitment
Product	CALD-201 50 mg film-coated tablets · CAL-SPEC-OSD-201-01
Annual plan	4,800,000 tablets / 10 batches
Reserved monthly capacity	420,000 tablets
Released-tablet price	\$0.11 firm for 12 months
Technology transfer	\$295,000.00
Safety stock	4 weeks after commercial launch
Approved subcontractor	Piedmont Analytical Services, compendial microbiology testing only

3. Amendments

1. Adds CALD-201 50 mg film-coated tablets to the product schedule.
2. Reserves 420,000 tablets of monthly capacity for the 12-month firm supply period.
3. Fixes commercial product pricing at USD 0.108 per released tablet and technology transfer at USD 295,000.
4. Requires four weeks of finished-product safety stock after launch.
5. Adds technology-transfer milestones and a target first PPQ date of 15 March 2027.
6. Conditionally approves Piedmont Analytical Services only for compendial microbiology testing; further subcontracting requires written approval.

TECHNOLOGY-TRANSFER MILESTONE FLOW

20% Kickoff and controlled- document index 23 November 2026	➤	25% Analytical method transfer complete 15 January 2027	➤	25% Engineering batch accepted 19 February 2027	➤	20% PPQ readiness approved 12 March 2027	➤	10% Final transfer report approved 31 March 2027
---	---	---	---	---	---	---	---	--

Milestone evidence. Each invoice must identify the approved deliverable, approval date, and responsible Caldova owner. Payment does not waive acceptance criteria or quality requirements.

Capacity control: forecast volumes above 420,000 tablets in a month require written confirmation and do not reduce the four-week safety-stock obligation.

4. Quality and supply controls

The selected supplier shall not begin engineering, PPQ, or commercial execution until the applicable protocols and quality responsibilities are approved. The Quality Agreement governs deviation notification, OOS investigations, change control, data integrity, batch disposition, complaints, and recalls.

Piedmont Analytical Services is conditionally approved only for the stated testing scope. Summit Dose Manufacturing remains fully responsible for subcontracted work, data, investigations, and timely delivery. Any location, method, or scope change requires Caldova's prior written approval.

5. Unchanged terms

Except as expressly changed by this Amendment, MSA-CAL-SUM-2024-017 remains unchanged and in full force. If a conflict exists, this Amendment controls for CALD-201. The purchase order provides quantities and dates but does not alter prices or quality obligations.

6. Approvals

The procurement exceeds USD 1,000,000 in anticipated annual commitment when capacity, transfer, and forecast exposure are considered. The executive recommendation and approvals below evidence compliance with CAL-POL-PUR-001.

For Caldova Pharmaceuticals, Inc.

Mona Kane · Chief Supply Chain Officer
16 November 2026

For Summit Dose Manufacturing

Alex Mercer · Chief Commercial Officer
16 November 2026

Andre Lawson
Chief Finance Officer
Approved 16 November 2026

Charlotte Waltson
VP of Procurement
Approved 16 November 2026
