**Incoterm:** FCA Summit Dose Manufacturing, Basel, Switzerland (Incoterms 2020)  
**Supplier acknowledgment:** Supplier must acknowledge within five business days.  
Agreement terms control over conflicting supplier terms.

## 1. Batch and delivery instructions

### PACKAGING AND TRANSPORT

Twelve sealed drums per batch, 80,000 tablets per drum; 15-25 C; protect from moisture; tamper-evident seals and serialized drum labels required.

### REQUIRED RELEASE PACKAGE

Certificate of Analysis, Certificate of Compliance, executed batch record, deviation summary, release statement, packing list, and chain-of-custody record.

## 2. Quality and acceptance

- All manufacture and testing must comply with CAL-SPEC-OSD-201-01, the approved master batch record, the Quality Agreement, cGMP, and the amended agreement.
- Supplier quality-unit release does not replace Caldova's final disposition for use.
- Any deviation potentially affecting identity, strength, quality, purity, data integrity, delivery, or regulatory commitments requires prompt written notice.
- No substitution of materials, site, equipment train, test method, or subcontractor without approved change control.
- Caldova may quarantine or reject nonconforming product under MSA-CAL-SUM-2024-017.

## 3. Commercial controls

Invoices must quote this PO and line number, identify the relevant batch or approved milestone, and include required evidence. Only quantities and charges shown here are authorized. Taxes, freight, storage, surcharges, or pass-through expenses require explicit written authorization.

### Authorized for Caldova

Mona Kane, Chief Supply Chain Officer  
18 November 2026
